

# OR 130

remote control to monitor the real-time status

NSF certified  
NAMA listed

wide window for clear internal visibility

MDB - Executive payment systems interface (cash and cashless)

100% freshly squeezed orange juice

automatic self-cleaning with sanitization

**“Simply the best orange juice vending machine in the world!”**

This is the best-seller of the Oranfresh® range of products, and the leader among citrus juicers in the Vending sector. It has a good capacity and is very versatile. OR 130 is the hallmark of our technology, and is fully equipped with a telemetry system for remote control of the machines, a self-cleaning system, NSF certified and NAMA listed for commercial use. It is reliable, strong, smart and with a backlit window, highlighting our Italian style. OR 130 represents the evolution of the first ever fresh orange juice vending machine in the world, invented by Oranfresh® in 1987. More than 30 years of experience packed in this machine!

**Dispensing capacity** Hermetically insulated and fully refrigerated, with storage for 50 kg/121 lb of oranges for dispensing around 80 cups of freshly squeezed orange juice (12 fl oz cup).

**Telemetry** An advanced telemetry system, developed specifically for the Oranfresh® Vending sector has been installed. This ensures an internet based remote control of the machines in operation.

**Self-cleaning** The machine includes an automatic internal self-cleaning system, using high pressure water jets. It can be preset through a built-in programmable timer.

## PATENTED PROCESS

## Technical Features

### Measures

96x190x88 cm - 37.8x74.8x34.6"

### Voltage

230-115V / 50-60Hz

### Power Consumption

250W stand-by / 1000W max

### Weight

330 kg - 728 lb

### Orange Storage

50 kg - 110.2 lb

### Dispensing Capacity

100-130 servings

### Temperature

adjustable from 5 °C upwards

### Payment Systems (optional)

coin-note acceptors in all currencies, cashless payment technologies, MDB-Executive protocols

### Self-Cleaning

programmable self-cleaning after N servings and by the clock; sanitizing option

### Language

all main languages available

## 10 health benefits of orange juice

### 1. Packed with vitamin C

Vitamin C is best absorbed by the body through food and beverage form, as it cannot be synthesized by the human body. Two glasses of orange juice a day can increase vitamin C concentration within your body by 40 to 64 percent.

### 2. Immune system boost

Orange juice and its nutritional content help boost the immune system. Vitamin C is a powerful antioxidant that helps provide the immune system with a much needed boost, all the while fighting off free radicals that can damage the immune system lowering its ability to tackle the illness.

### 3. Powerful antioxidant, great for detox

Along with vitamin C, orange juice is also very high in vitamin A, which acts as a moderate antioxidant. Beyond that, it detoxifies the body by increasing the function of the kidneys.

### 4. Good source of fiber

Orange juice comes with a high fiber content, which is useful for bowel regularity and cholesterol levels. One large orange contains 18 percent of your daily recommended fiber intake.

### 5. Prevention of kidney stones

Orange juice contains citric acid and citrates, which are believed to help reduce the risk of kidney stones.

### 6. Improve blood circulation

Oranges have a high folate count, which is necessary for the creation of DNA and new cell growth. Folate also protects cells from damage and mutation and wards off free radicals.

### 7. Reduce inflammation

Citrus fruits in general have been hailed as anti-inflammatory agents and consuming citrus can help ward off metabolic syndrome that can lead to complications such as type 2 diabetes.

### 8. Balance blood pressure

High potassium content of orange juice lowers blood pressure

### 9. Improve cholesterol and heart health

Orange juice has been shown to help improve cholesterol numbers.

### 10. Rejuvenate skin

Orange juice is packed with antioxidants – this so far has been made quite clear – and these antioxidants can also leave you with radiant skin. Antioxidants fight off free radicals, and those found in orange juice can protect your skin from sun damage and pollution, prevent wrinkles, and improve overall skin texture.
